LIST OF TABLES

FOREWORD

In accordance with Article 220(2) of the Constitution of Kenya and section 126 of the Public Finance Management Act, 2012, the County Treasury prepared the County Annual Development Plan (CADP) for the FY 2025/2026. The plan provides a framework that will guide the implementation of priority development projects and programmes earmarked for the FY 2025/2026. It will focus at providing ways to address the development challenges facing the County in order to achieve its medium-term vision of "A wealthy County with healthy and secure people for shared prosperity."

This ADP was developed through a consultative, all-encompasing and participatory process where the county government conducted public participation forums at the subcounty level on 20th August 2024, receipt of memoranda and engaged the young generations through an X-space on 21st August 2024. These forums helps in ensring that the development agenda is people driven and all inclusive.

In addition, in compliance with the relevant legislations, the 2025/26 FY ADP was prepared, in accordance with the principles contained in the national and international development agenda. As such the development objectives of the Medium Term Plan IV of the Kenya Vision 2030, the Bottom-up Economic Transformation Agenda (BETA) and the targets contained in the Sustainable Development Goals (SDGs) have been aligned to this ADP. In this regard, the ADP has identified county development objectives in all sectors and proposed programmes which are designed to meet the respective sectors development objectives.

Through review of the performance of the previous year, this plan provides a critical analysis of the improvements that needs to be made and how the challenges experienced will be addressed in successive plans. This document will direct the Medium-Term Expenditure Framework budgeting process for the financial year 2025/2026 which will include the preparation of the County Fiscal Strategy Paper, 2025 and ultimately the budget estimates for the FY 2025-2026. It is important to note that the county government's resource basket has continued to be insufficient to finance all the projects and programmes proposed in the ADP.

Therefore, to bridge the funding gaps, there is need to identify new ways of financing the budget which includes donor, public private partneships and other development partners. We also encourage all those involved in management of public funds to ensure prudency in utilization of the available strained resources among the unlimited competing needs to guarantee maximum benefits to the county citizenly.

During the implementation of identified projects and programmes, the county government will prioritize sharing of timely and adequate imformation with stakeholders. We are also commited to strengthening of participatory monitoring and evaluation to ensure that the proposed projects are directed to addressing the felt needs of the society for sustainable development. The feedback obtained through participatory monitoring of projects and programmes is very vital for the Government since will infrom decision making by availing evidence-based data at both the County and National level.

County Executive Committee Member,
FINANCE, ECONOMIC PLANNING AND ICT

ACKNOWLEDGEMENT

The Annual Development Plan (ADP) is a policy document that is prepared in accordance with Article 220(2) of the 2010 Constitution of Kenya and Article 126(1) of the 2012 Public Finance Management Act. Further, in accordance with Article 201(a) of the Constitution of Kenya, section 125(2) of the PFM Act, 2012 and section 87 of the County Governments Act, 2012, which calls for public participation on all matters affecting the public, preparation of this plan was participatory with involvement of the various stakeholders and members of the public.

I want to start by thanking H.E. Governor Mutahi Kahiga and H.E. Deputy Governor Waroe Kinanire for their invaluable leadership and assistance. I also want to express my gratitude to CECM Finance, Economic Planning and ICT, Mr. Robert Thuo, for initiating the budget cycle by taking the initiative, involvement and skillfully ensuring the process was finished as within the set legal timelines.

The contribution and coordinated efforts of the County Government officials led to the preparation and completion of this Nyeri County Annual Development Plan, 2025/2026. I sincerely appreciate all of the County Executive Committee Members, the County Secretary, all the Chief Officers/Accounting Officers, County Directors and other County Officials for their overall departmental cooperation and support during the plan preparation process.

The policy document was put together by a team of staff in the Economic Planning directorate that invested significant amount of time in the process. I want to express my gratitude them for their thorough work on the preparation of this document and with the guidance from the State Department for Economic Planning guidelines.

For the members of the public who participated in the process, their efforts were not in vain as they have greatly enriched the policy direction in planning of resource allocation over the medium term. Through this process the citizens are more aware of their community needs and how government responds to them.

Finally, the achievement of the set objectives in this plan, requires greater transparency, effectiveness and efficiency in public financial management in order to ensure maximum benefits from the limited resources.

CONCEPTS AND TERMINOLOGIES

Programme: A grouping of similar projects and/or services performed by a Ministry or Department to achieve a specific objective; The Programmes must be mapped to strategic objectives.

Project: A project is a set of coordinated activities implemented to meet specific objectives within defined time, cost and performance parameters. Projects aimed at achieving a common goal form a programme.

Green Economy: The green economy is defined as an economy that aims at reducing environmental risks and ecological scarcities, and that aims for sustainable development without degrading the environment.

Indicators: An indicator is a measure that can be used to monitor or evaluate an intervention. Indicators can be quantitative (derived from measurements associated with the intervention) or qualitative (entailing verbal feedback from beneficiaries).

Outcomes: The medium-term results for specific beneficiaries which are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives as set out in its plans. Outcomes are "what we wish to achieve". Outcomes are often further categorized into immediate/direct outcomes and intermediate outcomes.

Outputs: These are the final products, goods or services produced for delivery. Outputs may be defined as "what we produce or deliver".

Performance indicator: A measurement that evaluate the success of an organization or of a particular activity (such as projects, programs, products and other initiatives) in which it engages.

Outcome Indicators: Outcome indicators measure the quantity and quality of the results (change) achieved through the provision of services. An outcome indicator answers the question: "How will we know success when we see it?" Examples: Percentage decrease in child mortality; Increase in productivity for small farmers; Literacy rates in a given primary grade; etc.

Capital Projects: Can be defined as a group of related activities that are implemented to achieve a specific output and to address certain public needs. Projects should therefore be based on a comprehensive needs assessment and must have a time frame for completion and realization of the desired results. Capital projects shall be all activities meeting the above definition with a cost of at least Kshs. 5 million ***(Treasury Circular No. 14/2016 dated July 13, 2016).***

LEGAL BASIS FOR THE COUNTY ANNUAL DEVELOPMENT PLAN (ADP)

Public Finance Management Act 2012, Section 126. (1) requires that every county government shall prepare a development plan in accordance with Article 220(2) of the Constitution, that includes—

(a) Strategic priorities for the medium term that reflect the county government's priorities and plans;

(b) A description of how the county government is responding to changes in the financial and economic environment;

(c) Programmes to be delivered with details for each programme of-

(i) The strategic priorities to which the programme will contribute;
(ii) The services or goods to be provided;
(iii) Measurable indicators of performance where feasible; and
(iv) The budget allocated to the programme;

(d) Payments to be made on behalf of the county government, including details of any grants, benefits and subsidies that are to be paid;

(e) A description of significant capital developments;

(f) a detailed description of proposals with respect to the development of physical, intellectual, human and other resources of the county, including measurable indicators where those are feasible;

(g) A summary budget in the format required by regulations; and

(h) Such other matter as may be required by the Constitution or this Act.

(2) The County Executive Committee Member responsible for planning shall prepare the development plan in accordance with the format prescribed by regulations.

(3) The County Executive Committee Member responsible for planning shall, not later than the 1st September in each year, submit the development plan to the county assembly for its approval, and send a copy to the Commission on Revenue Allocation and the National Treasury.

(4) The County Executive Committee Member responsible for planning shall publish and publicise the annual development plan within seven days after its submission to the county assembly.

EXECUTIVE SUMMARY

The County Annual Development Plan (CADP) for the fiscal year 2025/2026 establishes the foundation for and marks the Third year of executing County Integrated Development Plan (CIDP), 2023-2027. This plan outlines the roadmap for implementing County projects, programs, and initiatives across various departments and entities. It plays a crucial role in directing resources towards prioritized projects and programs, as identified in the CIDP for the 2023-2027 period.

Chapter one provides an overview of the county and the rationale for prepration of the County Annual Development Plan (CADP). This section also outlines the plan preparation process. It underscores the linkage of the CADP with CIDP and other development plans.

Chapter two provides a review of the previously implemented CADP (FY 2023/24) considering, Financial Performance including revenue performance, Expenditure analysis and pending bills, Sector and Subsector key Achievements; Status of the Projects and Issuance of Grants as well as Benefits and subsidies. It also provides contribution of achievements to the National, Regional and International aspirations/ Concerns, Challenges encountered, Emerging Issues, Lessons Learnt during implementation of the previous plan, recommendations and arising development issues.

Chapter three offers an overview of the county's upcoming plans, encompassing key strategic priorities in terms of projects, programs, performance indicators, and the integration of cross-cutting concerns like climate change, environmental preservation, Disaster Risk Management (DRM), HIV/AIDS, Gender, Youth, Persons with Disabilities (PWD), and Ending Drought Emergencies (EDE). This chapter also outlines the overall resource needs as per the Annual Development Plan.

Chapter four section indicates the criteria used to allocate resources per sector/sub-sector and across different departments. It also gives a description of the financial and economic environment and the trend in growth in equitable share, trends in revenue collection, estimated and actual revenue and the link between the budget and the planning process. It also highlights probable risks to be experienced during implementation, corresponding assumptions and mitigation measures.

Chapter five highlights the Monitoring and Evaluation framework and institutional arrangement, as outlined in the County Integrated Monitoring and Evaluation System (CIMES), that will track and report on CADP implementation progress. It describes county monitoring and evaluation structure, data collection analysis, reporting and information sharing.

The plan concludes by providing the monitoring and evaluation matrix in the annex indication how the planned initiatives are tracked to achieve the intended objectives.

Finally, the successful implementation of the County Annual Development Plan 2024/2025 hinges on timely disbursement of funds from the National Treasury, contributions from development partners, and the County's own revenue generation. Legislative measures and reforms are also essential for the sucessiful implementation of sector programs and projects.

CHAPTER ONE

INTRODUCTION

1.0 Introduction

This chapter gives a summary of the socio-economic and infrastructural information that has a bearing on the development of the County. It describes the County in terms of the background position and size, location; demographic profiles; ecological and climatic conditions; administrative and political units. It also presents the linkage with the CIDP 2023 -2027 and finally highlights the preparation process of the Annual Development Plan.

1.1 Overview Of The County

Nyeri County is one of the 47 counties of the Republic of Kenya as provided for under the first schedule of the Constitution of Kenya, 2010. The county is located in the central Kenyan region along the equator between longitudes $36^{0}38$” east and $37^{0}2^{0}$” east and latitude 0^{0} 38^{0} south. It covers an area of 3,325Km^{2} and borders Laikipia County to the north, Kirinyaga County to the east, Murang’a County to the south, Nyandarua County to the west and Meru County to the northeast. Nyeri County has an estimated population of 828,805 persons consisting of 49 percent male and 51 percent female according to the projections by KNBS, 2022.

Administratively, the county is divided in to eight sub-counties namely; Mathira East, Mathira West, Kieni East, Kieni West, Tetu, Mukurweini, Nyeri Town and Nyeri South. The sub-counties are further divided into twenty (22) divisions, 82 locations and 252 sublocations.

1.2 Rationale For Preparation Of The County Annual Development Plan (CADP)

The development of the County Annual Development Plan (CADP) for the financial year 2025/26 is a critical process in guiding the county's development agenda. It provides a framework for identification and prioritization of projects and programs that will have the highest impact on the county's development goals. Further, Article 220(2) of the Constitution of Kenya 2010 and Section 126 of the Public Finance Management Act 2012 mandates the County Government as part of the budget cycle where budgetary allocation must be based within the planning framework.

Subsequently, the CADP provides the financial resources needed to implement the identified projects and programs, ensuring that budgeting is aligned with development priorities to facilitate in efficient use of public funds. The plan will also provide a benchmark against which the county's performance will be measured. It includes specific targets and indicators that allow for monitoring progress and evaluating the effectiveness of implemented programs against the set objectives to ensure accountability.

The plan forms a basis for consultations with and valuable input from various stakeholders, including the public, civil society, and private sector. This participatory approach has endured that the CADP 2025/2026 reflects the needs and aspirations of the community, promoting inclusivity and ownership of the planned activities.

The Plan is enhancing coherence and synergy between local, national, and global development efforts. This is because it has ensured that county-level development is aligned with national development plans and international frameworks such as the Sustainable Development Goals (SDGs). It will also help to integrate the plans and strategies of various sectors within the county, promoting coordination and reducing duplication of efforts. This holistic approach guarantees that different sectors work together towards common development objectives.

Therefore, the preparation of the County Annual Development Plan 2025/26 will enable effective planning, efficiency in resource allocation, stakeholder engagement, and alignment with broader development goals, ultimately contributing to sustainable development and improved quality of life for the county residents.

1.3 Preparation Process Of The CADP 2025/26

The Nyeri County Annual Development Plan (ADP) 2025/2026 was developed in an all-inclusive and consultative process where all county sectors, departments and units prepared their respective sections in line with the CIDP (2023-2027) and then consolidated as one document. Further the opinion of the public and key stakeholders was sought through public participation forums at the subcounty level, call for memoranda though the newspapers and an online X-space. The ADP contains the strategic priority development programmes/projects that will be implemented during the financial year 2025/2026.

Further, the 2025/2026 ADP has identified county development objectives in all departments and proposed programmes which are intended to meet the County development agenda. However, it is good to note that the priority programmes identified and included in the 2025/2026 ADP are also geared towards the realization of the County's Vision of "A wealthy County with healthy and secure people for shared prosperity."

1.4 Linkage Of The CADP With CIDP And Other Development Plans

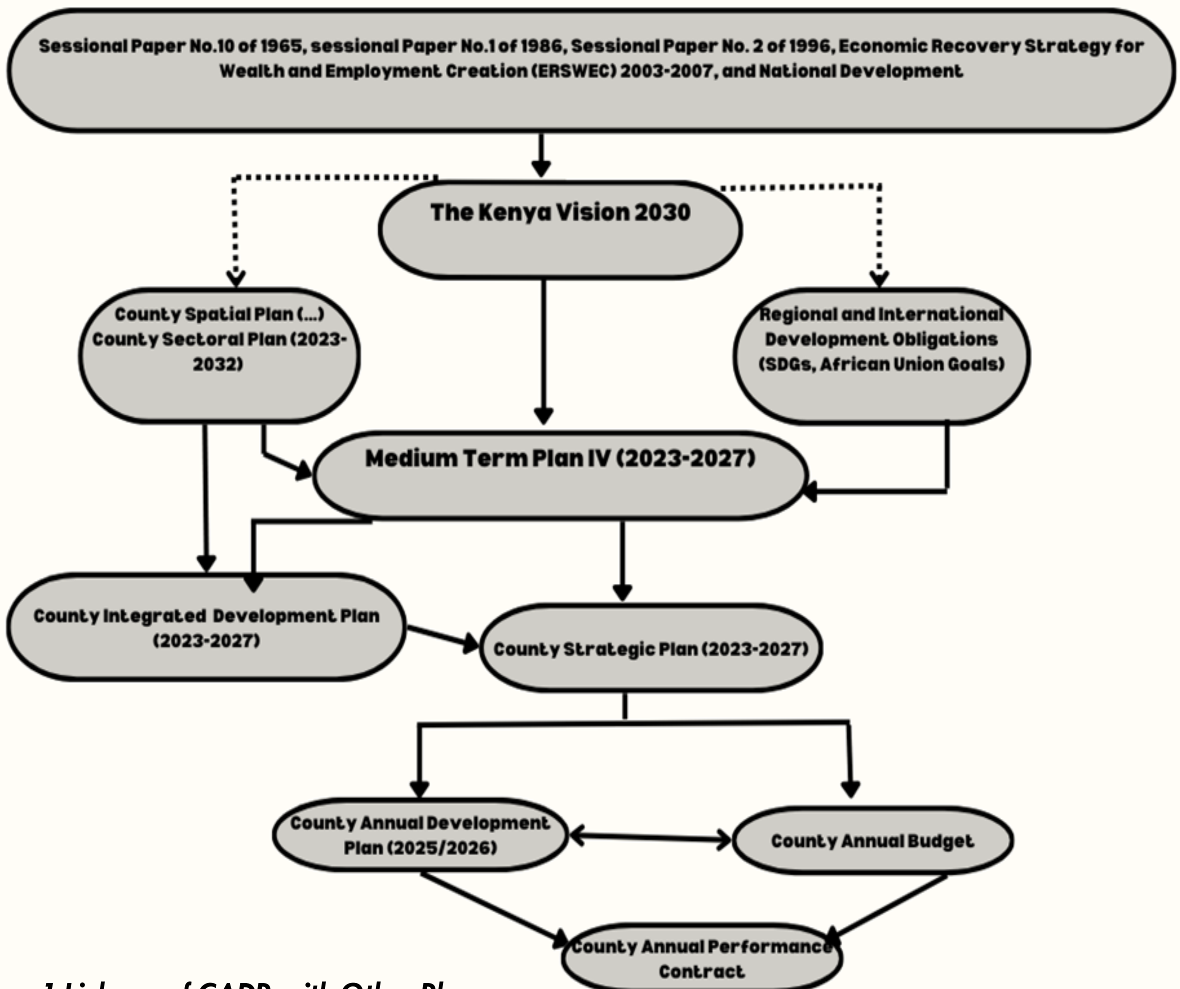

Figure 1:Linkage of CADP with Other Plans

The CIDP 2023-2027 is based on the following broad strategic objectives.

- Improve productivity in agriculture and overall food and nutrition security.
- Promote shared economic growth and job creation.
- Enhance good governance and active citizenry.
- Enhance basic infrastructure for effective service delivery.
- Promote climate action, environmental protection, and sustainable use of natural resources.
- Improve financial sustainability and resilience.
- Provide accessible, affordable, and quality health care services.
- Scale up institutional development, transformation, and innovation.
- Promote access to quality and affordable housing.
- Enhance the use of information and communications technology (ICT) and other innovations.

These objectives will inform the prioritization of projects and programs in the ADP 2025/2026. Further, each of the priority areas identified in the FY 2025/26 ADP is linked to a specific program under the various sectors within the program based CIDP 2023-2027.

CHAPTER TWO

REVIEW OF THE IMPLEMENTATION OF THE PREVIOUS CADPS

2.0 Introduction

2.1 Analysis Of ADP 2024/2025 Allocation Against Approved Budget 2024/25

This section seeks to establish the linkage between the running CADP and the county budget. It further links the CADP 2024/25 to the CADP 2025/26. The section provides a sector-specific assessment of the budget allocation between the planned programmes and projects in

**The allocation amount for FY 2024/25 excludes the figure for Personal Emoluments*

The table outlines the planned projects and programs as listed in the County Annual Development Plan (CADP) 2024/25, alongside their respective budget allocations in the approved 2024/25 budget. While most sectors saw a reduction in the final budget allocation compared to the CADP estimates, notable exceptions include the County Assembly ad the Department of Finance, Economic planning and ICT, which received a significant increase. This discrepancy in allocations may be due to shifting priorities, funding constraints, as well as reassessment of the scope of the planned activities to align them to the available resources.

The revenue collection performance for the fiscal year 2023/24 reveals a mixed outcome, with several streams underperforming while others met or exceeded expectations. Overall, the county's total revenue fell short by KSHs 132.88 million, underscoring the need for a closer examination of revenue estimates targets as well as collection and enforcement strategies. Notably, Several revenue streams experienced notable shortfalls. The Liquor License revenue was KSHs 31.87 million below the target, possibly due to stricter regulations, reduced renewals, and a decline in the number of licensed establishments. Similarly, the Housing Estates Monthly Rent underperformed by KSHs 13.89 million mainly reflecting failure by the tenants to remit their monthly rent. Other revenue streams that recorded notable underperformance include business permits, cess fees, Enclosed Bus Park, Buildings Plan Approval Fee/Buildings Inspection Fee as well as Land Rates/Other Property Charges.

On a positive note, some revenue streams showed resilience. Market Entrance/Stalls/Shop Rents surpassed the target by KSHs 1.59 million, indicating robust market activities while others such as Street Parking Fees and Right-of-Way/Way-Leave Fee depicted similar trends.

Table 2.3 above provides an overview of the budget allocation and expenditure across various sectors and programs within the county in the FY 2023/24. The overall absorption rate stood at 88% suggesting a generally good level of budget execution. The remaining 12% under absorption is as result of a combination of both internal and external factors ranging from delays in execution of projects and completion of planned projects and programees, underperformance of local revenue and delays in release of exchequer issues as well as conditional grants.

Notably, the County Public Service Board and the County Assembly had the highest absorption rates, both at 93% and 94% respectively, reflecting efficient use of their budgets. In contrast, the Water, Environment, and Climate Change sector had the lowest absorption rate at 63%, suggesting challenges in project implementation ,delays in expenditure and late release of donor funds. Overall, while most sectors have performed well, there are a few areas where underperformance is evident, that need to be addressed.

Goal 18:	Engaged and Empowered Youth and Children	dd) Provision of bursaries and vocational training opportunities for the youth. ee) Implementation of youth empowerment programs and internships
Goal 20	Africa Takes Full Responsibility for Financing Her Development	ff) Development of a resource mobilization framework

2.7 Sector Challenges

Cashflow Challenges Occasioned by Delayed Exchequer Releases and shortfall in Local Revenue Collection

Cashflow challenges resulting from delays in exchequer releases by the National Treasury and shortfalls in revenue collections affected implementation of the planned activities. There has been a resource gap emanating from unachieved revenue target collection which continues to hamper implementation of various programmes and projects in the county. This has consequently contributed to buildup and accumulation of pending bills affecting efficient service delivery as planned activities were not fully paid for on time. However, the county continues to widen its revenue base and to heighten enforcement measures to seal all possible loopholes.

Drought and Other Climate Change Related Occurrences.

Climate-change related occurrences such as recurrent drought have continued to affect the Nation's as well as the County's agricultural productivity potential leaving a significant number of people at the risk of starvation. This has led to the diversion of funds that would otherwise be used for development to cater for such cases.

Additionally,Unfavorable weather conditions delayed commencement and implementation of some projects like roads.

Inflation and High Cost of Living

The implementation of of the ADP 2023/24 was also affected by the global economic recession occasioned by the ongoing geo-political tensions, elevated global inflation, persistent supply chain disruptions, as well as the persistent increase in the price of good and services.

Delay in Processing of Relevant Documents from Collaborating Institutions and Other Government Agencies

Implementation of projects and programmes in the county requires an all-inclusive collaboration with different stakeholders to avoid unnecessary delays in processing relevant documents needed for budget implementation. Some of the stakeholders, for instance are the Controller of budget (C.O.B.), Kenya Revenue Authority (K.R.A.), National Environmental Management Authority (NEMA), Water Resources Management Authority (WRMA), Kenya Forest Service (KFS), Kenya Wildlife Service (KWS) among others.

Lack of a Designated Sanitary Land Fill

Non-existence of a site for county waste disposal has been and continues to negatively affect the waste management process. This poses health risks to the citizens as the county does not have adequate land for disposing waste. Efforts to create citizen awareness on the importance of acquiring land for waste management is being done to gain public support.

Unplanned Settlement Areas

Encroachment of informal settlement areas has greatly hindered delivery of major services to the citizens including road improvement, disease surveillance and campaigns, vaccinations and fire-fighting services. This coupled with vandalism of existing structures remain counterproductive curtailing meaningful development of these areas.

Hindrances to essential service delivery due to offices being located in different areas

There has been a challenge in service delivery to citizens who require service from all departments since most offices are situated in different areas. This has been due to lack of a single service point housing all departments. Adequate budget needs to be provided for construction of a commodious office block for efficient and effective services delivery especially to the members of the public.

Rising County Wage Bill

The county wage bill has continued to grow, this is even though the resource basket has remained almost constant. Consequently, the county has had to reallocate resources from the operation and maintenance budget since it is mandatory for atleast 30% of the budget to be set aside for development expenditure. This has had a negative impact on County operations and may in the long run hinder project implementation.

Changes In The Procedure For Release Of Conditional Grants

Changes in the procedure for release of conditional grants without proper preparations thus delaying the approval process. In the current financial year, the disbursement of conditional allocations was delayed following an amendment made to the PFM Act requiring signing of an agreement between counties and the Principal Secretary, National Treasury. We therefore recommend that proper structures should be establishment before operationalization of new policies.

2.8 Emerging Issues

Transfer from Cash to Accrual Accounting

The transition from cash-based to accrual accounting is a significant shift that requires counties to recognize revenue and expenses when they are earned or incurred, rather than when cash is received or paid. While these changes are expected to enhance transparency and provide a more accurate financial position of the county, they will also demand significant capacity building and system upgrades.

More Attention on Public Participation, Openness, Transparency, and Accountability

The increased focus on public participation and transparency means that the government must now involve the public more actively in the planning and budgeting process. This will enhance the legitimacy and relevance of plans and budgets, as they will be more aligned to the needs and priorities of the citizens. However, it may also slow down the process, as more time and resources are required to conduct public consultations and ensure that decision-making is transparent and accountable. Counties will need to establish and maintain systems for ongoing stakeholder engagement

Austerity Measures by the Government

The government's call for austerity measures requires counties to cut down on non-essential spending and prioritize critical projects. This will necessitate a more stringent budgeting process, where counties must carefully evaluate and prioritise their expenditures.

Climate Change and Environmental Sustainability

The shift in attention towards climate change and environmental sustainability as well as recent occurrences of climate change related phenomenons such as drough, floods and land slides among other underscores the need for counties to intergrate environmental sustainability into the planning and budgeting process. This can be achieved through ensuring that budgets and plans put climate adaptation and mitigation efforts into consideration.

Technological Advancements That Call for Changes in Governance

Technological advancements, such as the rise of digital governance, e-services, and data-driven decision-making, require counties to invest in new technologies and upgrade their systems.

Inflation and Instability of the Shilling

The unstable nature of the Kenyan Shilling may lead to fluctuations in the costs of goods and services implying that plans and budgets have to designed in such a way that they are responsive to these l uncertainites.

2.9 Lessons Learnt

In the process of implementation of projects and programs as outlined in the Annual Development Plan 2023/24, it was observed that, for meaningful development, there is need to promote and strengthen partnerships and collaboration between the County government and various development partners. This will enhance the capital outlay to substantially bridge the gaps in funding its strategic priorities areas to guarantee social economic development.

Secondly, emerging changes in procurement, accounting, budgeting and project implementation process creates need for continuous capacity building of personnel to update their requisite skills and forestall possible delays in project execution. The high wage bill has continuously led to shrinking allocation meant for development, operations and maintenance. The county government should therefore limit recruitments to only areas with critical needs while exploring other initiatives to further reduce the same. Further, the existing staff should be rationalized in order to optimize their productivity.

Higher amount of local revenue collected would amount to more resource outlay that will in turn be directed to development activities. This will subsequently protect the county against overdependence on National Government exchequer releases. This therefore necessitates the county to put in place all measures possible to increase the own source revenue. Accurate resource mobilization mechanism should be enhanced for sustainability of projects and programmes. Further, the enactment of budget related legislations and timely release of funds from the National Treasury will allow for optimal resource absorption, proper management of cash flows and reduction of the amount of pending bills.

Notably, the available resources are not enough and hence the county government should consider seeking support from development partners to supplement the county budget. Previously, the World Bank has provided funds to construct Naromoru Level IV hospital and the Asian quarters Modern Bus Termini through the Kenya Devolution Support Programme and Kenya Urban Support Programme respectively. Constant engagement and collaborations with development partners will therefore play a great role boosting the already constrained resource basket.

The recurrence in occurrence of drought, famine, and other climate change related threats in some parts of Nyeri should be a major cause of concern. It is therefore necessary for the County Government to increase its level of preparedness with regard to disaster response and to put in place mitigative measures against climate change. It is also crucial for the government to put In place measures to cushion its people against the rising inflation and hard economic times.

Citizen engagement through civic education and public participation forums is important to ensure project and programme ownership. This will also minimize conflicts in county taxation, revenue collection, legislation and business processes within the county. Therefore, there is need to enhance investment, revenue mobilization while focusing more on development agenda and cost reduction to guarantee value for money to its citizenry.

2.10 Recommendations

a) To handle the frequent changes in procurement, budgeting and accounting, there is a need for the county to contnously invest capacity building of the public finance management staff as well as upgrading of financial systems, softwares as well as systems for tracking revenue and expenditures.
b) The shift in attention towards public participation, inclusivity, openness, accountability and transparency necessitates the county to strengthen it's civic education and public participation unit to be able to come up with active platforms and avenues for continuous engagement and feedback lops with the people.
c) In response to the government's call for austerity, it is crucial to conduct a thorough review of all planned projects and expenditures to identify areas where cost savings can be made. Counties should prioritize critical projects that have the most significant impact on service delivery and public welfare. Where possible, it will be important to explore avenues for partnerships with the private sector and development partners to co-fund projects. Measures towards resource mobilization and optimization should also be put in place.
d) To Integrate Climate Change Adaptation and Environmental Sustainability in to policy, planning and budgeting there will be need to allocate resources for climate-resilient infrastructure, sustainable agricultural practices, and disaster preparedness. The County should also develop and implement environmental policies that encourage the use of green technologies and promote conservation efforts and well as enhance its disaster preparedness capacity
e) To deal with the rising wage bill, the county should implement strategies to manage and control the growing wage bill. This may involve conducting a comprehensive staff audit to rationalize the workforce, limiting new hires to critical areas, and exploring ways to improve staff productivity. Additionally, measures such as introducing performance-based incentives to ensure that existing staff contribute effectively to county objectives should be considered.
f) To effectively deal with delays emanating from other government agencies, It is crucial to establish clear communication and coordination mechanisms to expedite the processing of relevant documents. This can be achieved through regular intergovernmental meetings, creating

liaison offices, or appointing dedicated officers responsible for managing these relationships and ensuring timely approvals and documentation.

g) To deal with challenges associated with dispersed offices and enhance the accessibility of services to the public ti is important to prioritize the construction of centralized office complexes or service hubs that house multiple departments. The County should also consider investing in upgrading their technological infrastructure to support digital governance, e-services, and data-driven decision-making.

h) Addressing the challenges of unplanned settlement areas will require regularization of the existing informal settlements including the improvement of infrastructure in these areas to facilitate the delivery of essential services. However, measures to prevent further unplanned settlements by enforcing land use and zoning regulations should also be put in place. The identification and acquisition of land for a designated sanitary landfills to address the ongoing waste management challenges should also be a priority.

2.11 Development Issues

Sector	Development Issue	Cause(s)	Constraint(s)	Opportunities
Agriculture and Rural Development.	Low crop Production and Productivity	▪ Inadequate extension officers ▪ Crop pests and diseases Infestation ▪ Low access to agricultural Inputs ▪ Inadequate value addition, agro processing, and market infrastructure ▪ Over dependence on rain fed agriculture	▪ Inadequate financial resources ▪ Lean public extension work force ▪ -Poor coordination amongst extension service providers and stakeholders in the county ▪ High cost of inputs and productive resources ▪ Poor distribution of agro dealers in the county ▪ Low utilization or non-utilization of existing value addition and market infrastructure ▪ Poor attitude/perception towards irrigation in the county due to dependency on rain fed agriculture	▪ Availability of qualified agricultural personnel in the market ▪ Existence of many stakeholders offering extension services who can be better coordinated for synergies to be well harnessed ▪ Availability of qualified personnel to offer guidance on usage of inputs ▪ Availability of National PPP framework that can be domesticated to promote investment in value addition, agro-processing, and market infrastructure ▪ Existence of development partners willing to support farmers in irrigation programmes and projects
	Declined Livestock Production and Productivity	▪ Poor animal husbandry practices ▪ Low access to inputs; feeds, water, vet services, among others ▪ High incidence of parasites and diseases on animals ▪ Prevalence of trans boundary zoonotic diseases and parasites to animals ▪ Poor delivery of extension services	▪ Inadequate availability of funds ▪ Existence of counterfeit and fake inputs in the market ▪ Low adoption of appropriate technologies such as high-yielding Livestock breeds ▪ Ineffective extension system due to inadequate staff	▪ Existence of agricultural training centres in the county ▪ Availability of certified inputs in the market ▪ Existence of Intergovernmental Coordination Platforms and enforcement on transboundary movement of animals ▪ Availability of qualified livestock professionals in the job market
	Low Fish Production	▪ Poor fisheries/aquaculture practices ▪ Negative attitude/perception towards	-Inadequate resource allocation for fish rearing -Existence of counterfeit and fake aquaculture inputs in the market -Resistance towards adoption of new technologies	- Existence of development partners willing to support aquaculture - Availability of extension service providers to offer advice on certified inputs and best rearing practices

Sector	Development Issue	Cause(s)	Constraint(s)	Opportunities
		fisheries/aquaculture in the county due to dependency on crops and other livestock products ■ Inadequate local production of inputs (fish feed) ■ High cost of fingerlings and fish feed		
	Inadequate/lack of access to clean and safe water and poor water management practices	■ Inadequate water infrastructure ■ Lack of knowledge on rainwater harvesting and conservation methods ■ Poor drainage and sewerage systems	■ Inadequate resources to support water connection and extension ■ Contamination and pollution of existing water supplies ■ Lack of underground water management strategy ■ Inadequate technical capacity ■ Illegal water connections ■ Poor adoption of water harvesting systems	■ Installation of rain harvesting facilities ■ Establishment of rural water companies to enhance water extension ■ Provision of storage water tanks and purchase of water bowsers by the County
	Environmental degradation and climate change	■ Deforestation ■ High population growth leading to increased pressure on the resources ■ Weak enforcement systems ■ Usage of firewood as the main source of energy	■ Overconsumption/unregulated use of natural resources ■ Lack of technical capacity to conduct sensitizations on environmental conservation ■ Lack of proper sensitization on protection and conservation ■ Encroachment of riparian and hilltop areas.	■ Existence of policies on land use and climate change ■ Existence of international protocols on climate change ■ Availability of alternative sources such as water, wind, solar ■ Developed policies, laws, plans and frameworks on climate change and Environmental Conservation
	Improper garbage and solid waste management	■ Non-compliance to EMCA ■ Poor waste disposal by the public ■ Inadequate waste collection and management equipment ■ Lack of awareness on importance of waste management	■ Inadequate financial resources to enhance proper waste management ■ lack of knowledge on waste management policies and laws	■ Existence of county dumpsites ■ Existence of County Environment policy ■ Establishment of land earmarked for more waste management
Public Administration & Governance	Succession management and staff welfare	■ Promotion and recruitment of staff to fill existing gaps ■ Capacity building and training of staff ■ More office space, equipment, and furniture ■ Staff loans and mortgages	■ High wage bill and associated costs ■ Lack of sufficient land in centralized areas for expansion of offices	■ Availability of programs that promote institutional transformation and capacity building ■ A huge workforce that makes it possible to leverage on internal recruitment.
	Innovations in service delivery	■ Digitization and automation of government service delivery processes	■ Lack of proper coordination of the digitization and automation processes	■ Availability of already existing ICT infrastructure and an ICT that can support and coordinate this process.
	Policies and legislations	■ The need to reduce disputes and litigations ■ -For Efficient	■ Opposition and resistance from members of the public during implementation and enforcement	■ Good relations between the County Executive and the County assembly makes it

Sector	Development Issue	Cause(s)	Constraint(s)	Opportunities
		coordination of government functions.	of some of the policies and legislations	possible to develop, adopt and enact policies and legislations
	Civic education and public engagement	▪ To enhance the awareness of the public on government functions and processes. ▪ To ensure participation and inclusivity in planning and decision making.	▪ Lack of proper coordination and finances.	▪ There exists an established civic education and public participation unit. ▪ High literacy levels in the county makes it easier to engage with the public.
Infrastructure, Energy, Rural and Urban Development	Roads and transport networks	▪ Undeveloped roads and limited access to some areas due to poor road network. ▪ Lack of bridges in some areas ▪ Poor road-drainage systems ▪ Traffic congestion, insufficient, parking and bus-parks.	▪ Encroachment on road reserves. ▪ High roads maintenance cost ▪ Vandalism of road signs.	▪ Collaboration with other agencies such as KENHA, KERRA and KURA in expanding and maintaining the roads and transport networks. ▪ Availability of extra donor funding for development of roads infrastructure. ▪ Goodwill from the political class and the people on matters related to construction of roads
	Energy provision	▪ The need to increase access to electricity and other forms of energy such as solar and biogas. ▪ High demand for streetlights and high-mast floodlights.	▪ The high cost of electricity bills associated with streetlights poses a huge financial burden to the county	▪ There exists alternative forms of energy that are cheaper than electricity and more environmentally friendly
	Affordable housing	▪ High demand for affordable housing	▪ Huge financial implication associated with the construction and maintenance of houses	▪ Collaboration with the National Government and development partners in housing projects
	Lands	▪ Lack of sufficient development control policies and regulations ▪ Lack of physical and land use plans ▪ Lack of modern survey and mapping equipment. ▪ Lack of digitization and automation of records and processes ▪ Informal Settlements (colonial villages)	▪ Encroachment and grabbing of public land. ▪ Land disputes and court cases.	▪ Existence of draft county spatial plan ▪ Leveraging on technology to improve land resource mapping and planning. ▪ -Availability of alternative dispute resolution mechanisms.
Social Services	Inadequate health facilities and infrastructure	▪ Poor access roads and referral system ▪ Inadequate medical equipment	▪ Constrained financial resources	▪ Improved health facilities ▪ Trained health professionals
	Poor health service delivery	▪ Increased cases of NCDs, particularly Mental Health conditions ▪ Poor feeding habits ▪ Lack of awareness on disease prevention measures	▪ Negative cultural, religion beliefs, myths ▪ Inadequate enforcement of health standards ▪ Inadequate guidelines dissemination	▪ Existence of CHVs at the County ▪ Skilled and trained health worker's personnel ▪ Partnership with the private sector and development partners

Sector	Development Issue	Cause(s)	Constraint(s)	Opportunities
	Hindrances in access to quality education and child development	▪ Inadequate child development facilities ▪ Poor education infrastructure ▪ Low enrolment of learners ▪ Poor curriculum implementation	▪ Delayed commencement of education ▪ High dropout rates ▪ Poor management of established learning institutions	▪ Funding of institutions by the County ▪ Strict adherence to National standards / curriculum / syllabus guidelines ▪ Existence of special schools, teachers, and instructors ▪ Refurbished existing ECDE institutions ▪ Enforcement of the existing MOE guidelines on school going age ▪ Improvement on bursary allocation to needy learners
	Psychosocial issues resulting affecting the public	▪ Drug and substance abuse ▪ Family breakdown and social disintegration ▪ Retrogressive cultural practices e.g. GBV	▪ Inadequate enforcement of the regulations on drugs ▪ Limited awareness on substances and substance abuse ▪ Lack of county based legal framework on GBV issues	▪ Presence of County rehabilitation centres ▪ Existence of Legal frameworks on substance abuse
	Continued instances of gender Inequality and lack of equity	▪ Limited Women/Men empowerment centres ▪ Gender based discrimination	▪ Negative cultural believes ▪ Limited control and decision making among women ▪ Poverty	▪ Implementation of the existing legal and policy frameworks for Affirmative actions
	Lack of support on creative arts and talents development for the youth	▪ Inadequate sporting facilities and equipment ▪ Unsupported talents among the youth	▪ Scarce financial resources	▪ Development of stadia and provision of sports equipment for the youth
General Economic and Commerce Affairs	Own source revenue mobilization	▪ Failure to meet own source revenue targets and delays in exchequer releases from the national treasury	▪ Political interference in revenue collection ▪ Shortage of revenue collection staff. ▪ Revenue leakages. ▪ An Inefficient revenue collection system. ▪ Lack of staff motivation and training	▪ Automation of revenue collection and migration to a more efficient revenue collection system to seal the revenue collection leakages ▪ Improvement of the work environment and training the revenue management staff. ▪ Enhanced collaboration between sectors to enhance revenue mobilization. ▪ Increased advertising and awareness campaigns on revenue payment. ▪ -Broadening of revenue streams
	Limited integration of ICT in service delivery	▪ Lack of reliable internet connectivity at the county. ▪ Limited capacity of the ICT unit to handle some of the service delivery needs and demands.	▪ Lack of proper coordination in development, adoption, and integration of ICT systems	▪ High demand for ICT uptake and integration of information of technology systems
	Asset management practices	▪ Failure by the national government to handover some of the assets after devolution	▪ Lack of a County Asset management framework	▪ Leveraging on ICT for efficient management of county assets.

Sector	Development Issue	Cause(s)	Constraint(s)	Opportunities
		▪ Failure to value the county assets. ▪ Lack of an asset disposal plan		
	Trading infrastructure	▪ Lack of sufficient and modern trading facilities ▪ Dilapidation of the existing ones	▪ Increase in the number of traders and demand for trading spaces	▪ High demand for contemporary and specialized market ▪ Availability of land for construction of markets.
	Consumer protection	▪ Lack of awareness among consumers of these unfair practices. ▪ Inadequate infrastructure and equipment to compliment enforcement efforts	▪ Rise in undetectable cases of unfair trade practices. ▪ Political interference in the enforcement of fair-trade practices	▪ The county has an established weights and measures unit that can be empowered to efficiently undertake its mandate. ▪ Leveraging on technology and the digital media to conduct consumer protection and related awareness campaigns
	Investment and industrial growth	▪ Lack of clearly mapped out investment opportunities ▪ Lack of affordable business credit ▪ Lack of county branding and marketing strategies. ▪ Lack of stakeholder consultations.	▪ Lack of political, stakeholders or investors' goodwill to grow investments in the County ▪ Unfavourable industrial and economic conditions	▪ -Availability of multiple investment opportunities. ▪ Leveraging on technology and the digital era to promote investment opportunities ▪ Existence of financial institutions and an existing fund to support enterprises ▪ Good-will from non-governmental stakeholders to collaborate in supporting investment and industrial growth ▪ Availability of land to establish Industrial parks and special zones.
	Co-operative Development	▪ Weak cooperative governance structures ▪ Low levels of aggregation and value addition ▪ Low levels of ICT and technology adoption in Cooperatives and their management. ▪ Dilapidated infrastructure in Cooperatives	▪ Internal conflicts and cooperatives management wrangles. ▪ Lack of sufficient capital ▪ Lack of value addition equipment and aggregation infrastructure	▪ -Availability of Agricultural and Cooperatives extension officers to monitor and train the cooperatives on best practices. ▪ Existence of donors and development partners who are willing to support, mainly, the agricultural cooperatives. ▪ Existence of strong legal and policy framework to guide the management of cooperatives
	Tourism	▪ Undeveloped and unmapped tourists and cultural sites ▪ Inadequate destination branding and tourism marketing efforts ▪ Lack of digital tourism marketing tools	▪ Inadequate tourism infrastructure ▪ Declining cultural heritage ▪ Inadequate funding for Tourism development	▪ Collaboration with government and non-governmental tourism stakeholders to promote tourism. ▪ Mobilization of external sources of tourism funding. ▪ Leveraging on technology and the digital era to enhance tourism marketing efforts.

CHAPTER THREE

COUNTY STRATEGIC PRIORITIES, PROGRAMMES AND PROJECT

3.0 Introduction

This chapter presents strategic priorities, programmes and projects for the FY 2025/2026. Cross-cutting issues such as climate change; environmental degradation; Disaster Risk Management (DRM), HIV/AIDs; Gender, Youth and Persons with Disability (PWD) issues, Ending Drought Emergencies (EDE) among others will be mainstreamed in the programmes and projects so as to minimize their effects on development and ensure inclusivity.

The chapter also provides a summary of what is being planned by the county including key broad priorities and performance indicators. It also indicates the overall resource requirements in the implementation of the FY 20252026 Annual Development Plan.

3.1 Agriculture And Rural Development

3.1.1. Sector Overview

This sector comprises of the following subsectors;

- Agriculture Livestock and Aquaculture Development
- Water, Environment and Climate Change

Vision and Mission

Vision: A food secure, healthy, economically stable, and environmentally sound county.

Mission: To be a vibrant, inclusive, and sustainable rural economy with transformed food, water and land use systems

Sector Goals:

a) Sustainably improve the quality of life for people of Nyeri
b) Sustainable rural development and poverty reduction
c) Promote, conserve protect monitor evaluate and sustainably manage the environment and natural for county development.

Table 22: Sector Priorities and Strategies

Sector Priorities	Strategies
To increase agricultural production, productivity, food, and nutrition security	Undertaking agricultural extension services
	Provision of quality farm inputs
	Improvement of soil health
	Control of pests and diseases
	Expansion of irrigated agriculture
	Enhancing mechanization
	Enhancing aggregation, value addition and marketing of produce
	Enhancing agricultural quality assurance standards
	Promotion of healthy nutrition
	Promoting initiatives to avoid over reliance on rain fed Agriculture and adoption of drought resistance crops
	Leveraging on innovations such as anchor model in addition to aggregator
	Modelling to de- risk agriculture e.g. agricultural guarantee scheme, insurance (Agricultural financing)
To promote resource mobilization and utilization	Encouraging formation of common interest groups and producer organizations.
	Enhancing sector coordination and collaboration
	Leveraging national, international and regional partnership for support
	Encouraging value chain-based financing
	Encouraging community contribution in project implementation for development ownership
	Leveraging on opportunities in carbon crediting
	Enhancing revenue collection for the sector
	Increasing forest cover and promoting agroforestry

Sector Priorities	Strategies
To conserve, protect and sustainably manage the environment and natural resources for county development	Promoting use of organic fertilizer
	Promoting soil and water conservation measures
	Promoting water harvesting and efficient water utilization
	Enhancing waste management and recycling
	Enforcing carrying capacity and stocking rates for sustainable pasture management
	Promoting use of renewable energy
	Development and establishment of infrastructure and green parks
	Protection of wetlands and riparian areas
	Inculcating a responsible culture on natural resources
To build climate resilience	Promotion of climate smart technologies, innovation and practices
	Promoting sustainable solid waste management
	Promotion and protection of indigenous plants and animals
	Developing climate resilient production systems
	Supporting Agro-weather market and advisory services
	Promoting insurance of Agro-enterprises
To strengthen policy and legal framework in the sector	Formulating, implementing, and enforcing policies and legal framework
	Building stakeholder capacity on existing policies and legal framework
	Review and domesticate existing national and international policies and legal framework
To enhance use of innovation and ICT in the sector	Collaborating with research organizations
	Ensuring dissemination of research outcomes
	Mapping and digitization of sector-based actors
	Digitization of sector programs and systems
To promote sustainable income generation activities (IGA)	Promoting value addition, recycling and processing
	Promotion of commercial forests and nurseries
	Promoting youth participation in the sector
	Establishment of incubation centers
	Establishment of value chain-based fund
	Creation of empowerment programs for women, PWDs and marginalized groups in our communities
	Accelerating access to market information and market infrastructure

3.1.2. Agriculture, Livestock And Aquaculture Development

Vision

A food secure, healthy, economically stable, and environmentally Sound County

Mission

To be a vibrant, inclusive, and sustainable rural economy with transformed food and Nutrition security

Development needs, Priorities and Strategies

a) To increase agricultural production, productivity, food and nutrition security
b) To build climate resilience
c) To promote sustainable income generating activities (IGA)
d) To develop appropriate policy and legal framework to create enabling environment for the sector
e) To improve market access and value addition
f) To enhance use of innovation and ICT

3.1.2.1 Sub-Sector Programmes And Projects

Table 23:Summary of Agriculture, Livestock and Aqua-Culture Development Sub-Sector Programmes

Sub-Programme	Key Outputs	Key Performance Indicator	Baseline (Current Stauts)	Planned Target	Resource Requirement
Programme Name: General administration, policy, and planning					
Objective: Create enabling working environment					
Outcome: Improved service delivery and productivity					
Institutional transformation and management					
	Offices constructed and equipped	No. of offices			5, 000,000
	Refurbished offices	No. of offices			2,000,000.00
	Equipped Offices	No. of Offices			2,000,000.00
	Vehicles/Motor Cycles Procured	Number of vehicles/Motorcycles Procured		3 motor vehicle	20,000,000
	Fuel Procured	Litres of procured fuel to support e-subsidy program			1,000,000.00
	Vehicles Maintaned	Number of vehicles maintained			3,000,000.00
Policy and planning	Policy and regulatory framework formulated	No. of Policy and regulations			4,000,000.00

Objective: **To increase crop production and productivity**					
Outcome: **Food and nutrition security**					
Crop production and management					
	Certified Seeds Provided	Tonnes of certified seeds			20,000,000.00
	Farn inputs procured and distributed	Tonnes of farms inputs procured			8,000,000.00
	Seedlings provided	No. of seedlings (000s)			11,000,000.00
	Coffee factories digitized and infrastructure rehabilitated	No. of coffee factories			40,000,000.00
	Aggregation centres established and rehabilitated	No. of centres			20,000,000.00
	Tea buying centres rehabilitated	Number of tea buying centres			10,000,000.00
	Selected value chains supported	No of Value chains		90,000	356,515,152.00
	Stakeholders trained	No. Trained		4,030	46,038,038.00
	Capacity building of staff and farmers. -Top working of coffee trees -Establishment of a clonal garden either at Wambugu ATC or in collaboration with a coffee Society	No of farmers trained -No of clonal gardens establishedd		1600 farmers trained	6,600,600.00
	Carrying out soil sampling	No. of soil samples done		900	1,000,000.00
Programme Name: Livestock production					
Objective: To promote Livestock Production					
Outcome: Improved livelihoods and household incomes					
Livestock production and management					
	Established feed reserves	Number of reserves			20,000,000.00
	Feed starter material procured	Number of industries supported			3,000,000.00
	Improved breeding stock	Number Procured			23,000,000.00
	Improved breeding stock	No. Dairy goats unit established			5,000,000.00
	Youth Involvement	Youth Involvement		500	3,000,000.00

Sub-Programme	Key Outputs	Key Performance Indicator	Baseline (Current Stauts)	Planned Target	Resource Requirement
Programme Name: Veterinary Services Development					
Objective: To enhance to animal welfare, disease prevention and control					
Outcome: Improved animal health and production					
Veterinary Services Development					
	A.I , vaccination crushes/dips Rehabilitated	Number of facilities/dips			12,000,000.00
	Animal diseases controlled	Number of animals Vaccinated/Served			34,712,000.00
	Improved breeds and AI services	Number of animals Vaccinated/Served			27,188,000.00
	Animal welfare promoted	No. of animal welfare centres established			20,000,000.00
	Acaricides procured	Litres of acaricides procured			3,000,000.00
	Animal welfare promoted	Number of certified slaughter houses			6,000,000.00
	Safe animal products for human consumption	Number of traders and flayers trained			200,000.00
	Common Leather manufacturing facility	Number of faciliities			20,000,000.00
Programme Name: Fisheries Development					
Objective: To promote Aquaculture and fisheries.					
Outcome: Improved livelihood					
Fisheries Production and Management					
	Established aqua park	Number of aqua parks			20,000,000.00
	Fingerlings provided	Number of Fingerlings (000s)			2,000,000.00
	Value addition on fish achieved.	Number of fish processing plants constructed			12,000,000.00
	Value addition on fish achieved.	Kilograms of fish feeds distributed /Number of fishponds lined and operationalized			5,000,000.00
	Youth involvement	No. of youth			1,000,000.00
	Extension services	No. of farmers reached			19,315,146.00
Programme Name: Agricultural Training and Mechanization					
Objective: To provide quality agricultural training Services and facilities					
Outcome: Enhanced agriculture development					
Agriculture mechanization					
	Agricultural machinery maintained	No. of Agricultural machinery			8,200,000.00
	Constructed hay barns	No. of hay barns			5,000,000.00
	Agricultural machinery maintained	Litres of Fuel Porcured			2,000,000.00
Agricultural training					
	Hostels renovated	No. of hostels			6,000,000.00
	Institutional moderrnization	Number of yards fitted with cabro			4,000,000.00
	Institutional moderrnization	Number of renovated and equpped halls			6,000,000.00
	Model production units established and promoted	No. of Livestock training unit established			2000000
	Institutional moderrnization	Material procured			3000000
	Institutional moderrnization	Security lights installed			1500000
	Institutional moderrnization	Ablution Block modernized			500000

Sub-Programme	Key Outputs	Key Performance Indicator	Baseline (Current Stauts)	Planned Target	Resource Requirement

3.1.3. Water Environment And Climate Change

Vision:

Sustainable access to quality Safe and adequate water in a clean secure climate resilient environment

Mission:

To promote, conserve protect and enhance climate resilient environment and improve access to water for sustainable development.

Development Direction

- To acquire land for four sewerage systems (Karatina, Mukurweini, Mweiga and Naromoru towns) to address liquid waste management.
- To promote green economy by use of solar/wind power energy in borehole pumping systems
- To rehabilitate 20 dams/Pans to increase water supply for domestic, irrigation and power generation.
- To construct 5 No medium Dams
- To expand the water coverage from 65-80% for rural and 70- 95% for urban areas.
- Exploitation of ground water by drilling (3No) and equipping 5 No boreholes in Kieni East Kieni West, Mathira West and East sub- counties.
- Promote strong collaboration with National Government, Development partners, Communities and Private sector.
- Transforming rain-fed agriculture to irrigated Agriculture by 15,000 hectares.
- Establish sustainable solid waste management infrastructure

Environment And Climate Change Priorities And Directions

- Enhance project compliance to and mainstreaming of environmental standards in all project phases
- Tree growing in the entire county on farms, greening of towns
- Reforestation and rehabilitation of degraded community forests
- Protection of wetlands
- Promote energy efficiency by usage of energy saving jikos
- Adoption of renewable energy through installation of solar heaters
- Capture data on climate related activities, coordinate their analysis, documentation and dissemination.
- Promote Public education and awareness on climate change.
- Promote forest conservation, sensitize on tree planting and green energy utilization.
- Advise County departments and the County Assembly on sound legislative and policy measures necessary for climate change response and low carbon development pathway.
- Research and information Sharing on Climate Change
- Training and awareness creation on environmental conservation and management
- Pollution Control (Water, air and noise)
- Promote Water storage and efficiency at community level

3.1.3.1 Sub-Sector Programmes And Projects

Table 25:Summary of Water, Environment and Climate Change Development Sub-Sector Programmes

Sub -Programme	Project name	Location/ Ward	Key Output	Performance indicators	Baseline (Current Stauts)	Planned Targets	Resource Requirement
Programme Name: Water Development and Management							

Sub -Programme	Project name	Location/ Ward	Key Output	Performance indicators	Baseline (Current Stauts)	Planned Targets	Resource Requirement
Objective: Extension of sustainable water supply for domestic, livestock, irrigation, and sanitation							
Outcome: Increased adequate, affordable, safe and clean water.							
Water and irrigation	Purchase and supply of (45No.) plastic water tanks of 10,000ltr	countywide	Distribution of Water Tanks	No. of tamks		45	5,645,416
	Rititie/Garogoto/Kanyama Water project	Kirimukuyu	Drilled and operational boreholes	No. of Boreholes		7	91,900,000
	Purchase of vehicle	County wide	Motorvehicle Purchased	No. of Motor vehicles		1	8,000,000
	Offices renovation and refurbishment	Sub county offices and HQ	Office Renovation and refurbishment	No offices renovated and refurbishment		1	10,000,000
	Rukira Irrigation Project	Mahiga	Rehabilitated and Constructed Water Intakes	No. of Intakes		49	233,000,000
	Desilting - Kirumia Dam	Kiganjo-Mathari	Rehabilitated and desilted dams	No. of Dams		3	71,500,000
	Kamoko Irrigation Project	Mahiga(Othaya)	Storage tanks constructed	No of masonry tanks constructed		3	13,500,000
	Training of WUAs and staff	County	Training of WUAs and staff	No of WUAs trained		2500	3,000,000
	Water bowser Purchase	County	Water bowser purchased	No of Water bowsers purchased		1	12,000,000
	Reduction of Non- revenue water	Water Service Providers: -MAWASCO, TEAWASCO, NAROWASCO, OMWASCO,Mukurweini central/Rugi	Water meters installed	No. Of meters procured and installed.		2000No.	17,000,000
Programme: Environmental Planning, Management and Conservation							
Objective: To promote sustainable use and management of the environment							
Outcome: A clean, healthy, and safe environment							
Environmental, planning, management, and conservation							
	Promotion of environmental management through celebration of environmental days	county	Environmental awareness	No. of campaigns and forums		4	4,500,000
	Kanathani/Kandu/Gikira/Maraguya/Tunuku/Ndiyi/Ichagethi/Kamuyu springs	County	Riparian zones mapped and rehabilitated	No. of zones		9	19,500,000
	CEAP preparation	County Wide	Environmental action plans, reports, policies, and regulations developed	No. action plans, reports, policies, and regulations		2	5,000,000
Programme: Forest Conservation and Management							
Objective: To promote the sustainable use and management of forest resources							
Outcome: Improved Forest management and conservation							
Forest Management							
	Participatory Forest Management Plan	County Wide	Forest Management plans developed	No of Plans		2	6,000,000
	Forest Management	County Wide	Forest personnel trained	No. of personnel		15	1,500,000

Sub -Programme	Project name	Location/ Ward	Key Output	Performance indicators	Baseline (Current Stauts)	Planned Targets	Resource Requirement
	Forestry value addition	county	Tree cover increased	No. of trees (000s)			1,000,000
	Rehabilitation of 50 acres of forest		Rehabilitated forests and landscapes	No. of Sq. Mtrs		50	2,000,000
	Preparation of PFMP	County	Forest Management plans developed	No of Plans		1	2,500,000
	Purchase of seedlings	Aguthi/Gaaki	Fruit Tree production enhanced	No. of fruit trees planted (000s)		7500	2,800,000
	Braided hosepipe, watering cans, wheel barrows, spades, shade nets, machete, hoes for establishment of a county tree nursery to allow for the cultivation of a larger number of tree seedlings, which is essential for reforestation, agroforestry, and land restoration initiatives.	countywide	Specialized equipment purchased	No. of equipment		1	70,000
Programme: Climate Change							
Objective: To enhance climate change mitigation and adaptation measures							
Outcome: Increase climate change resilience							
Climate change governance, financing, and management	Community capacity building on climate change	County	Sensitization campaigns conducted	No. of campaigns		2	2,000,000
		County	Installation of Energy saving	No of Jikos installed		35	8,000,000
	Procurement and distribution of Water harvesting infrastructure	County	Water tanks distributed	No of tanks distributed		320	5,000,000
	Construction of small earth Dams	County	Dams constructed/ Rehabilitated	No of Earth dams constructed		3	72,000,000
	Drilling and equipping of boreholes	County	Boreholes drilles and operationalised	No of boreholes drilled and equipped		5	50,000,000
	Establishment of a food processing factories	County	Food processing factories operationalised	No of food processing factories established		1	10,000,000
	Construction of Water Pans	County	Water pans constructed	No of water pans constructed/dug		50	4,000,000
	Procurement and distribution of dam liners	County	Procuring and distribution of dam liners	No of dam liners procured and distributed		500	2,000,000
	Provision of Water distribution Pipelines	County	Support for water projects	No. of Projects			3,000,000
	Procurement and distribution of certified seeds (maize, beans, potatoes, spinach, cabbage) and farm inputs	County	Supply and distribute fertilizers and pesticides	No of Kgs of procured and distributed		1000	3,000,000
	Rehabilitation of riparian zones	County	Riparian zones mapped and rehabilitated	No. of zones		1	6,000,000
	Procurement and distribution of fertilizer and Pesticides	County	Supply and distribute fertilizers and pesticides	No of Kgs procured and distributed		1000	5,000,000

Sub -Programme	Project name	Location/ Ward	Key Output	Performance indicators	Baseline (Current Stauts)	Planned Targets	Resource Requirement
	Establishment of tree nurseries	County	Established tree nurseries	No of tree nurseries established		2	3,000,000
	Establishment of aggregation centers for avocado, macadamia, bananas, etc.	County	Fruits aggregagtion centres established	No of aggregation centers established		1	5,000,000
	Installation of biogas at house-hold level	County	Procuring and installation of biogas systems	No of biogases installed		100	5,000,000
	Sensitization and capacity-building of businesses and cooperatives on climate change action	County	Sensitization campaigns conducted	No. of campaigns		10	3,000,000
	Installation of Automatic Weather Stations	County	Procuring and deploying AWS	No of AWSs installed		2	10,000,000
	Procurement and distribution of bamboo	County	Procuring and distribution of bamboo	No of bamboo seedlings procured and distributed		2000	2,000,000
	Establishment of urban green parks/spaces	County	Establishement of green spaces	No of green spaces established		1	10,000,000
	Procurement and distribution of fruit tree seedlings	County	Procuring and distribution of fruit tree seedlings	No of fruit tree seeldlings procured and distributed		5000	3,000,000
	Installation of solar panels to institutions	County	Equip institutions with solar panels	No of institutions solarized		1	9,000,000
	Installation of cold storage roomss	County	Set up refrigeration facilities to store perishable goods	No of scold storage rooms installed		1	3,000,000
	Construction of bridges	County	Build bridges	No of bridges constructed		1	10,000,000
	Capacity building of farmers on hydroponic farming.	County	Train farmers in soil-less farming techniques to increase crop production in limited spaces	No of farmers capacity build		50	2,000,000
	Establishment of fish-farming projects	County	Support community groups to Set up aquaculture farms	No of fish farms established		5	5,000,000
	Establishment of Milk Value addition Plants	County	Establish a facility to process and enhance value of milk products	No of cooling plants established		1	10,000,000
	Establishment of solar dryers in coffee factories	County	Setting up of solar-powered drying systems in the factories	No of coffee dryers established		4	10,000,000
	Establishment/support of Animal Feeds processing plant	County	Construction and Equiping of animal feeds processing plant	No of animal feeds processing plants established		1	5,000,000
	Installation of biogas in learning institutions	County	procuring and installation of biogases	No of learning institution benefited		2	2,000,000

Sub -Programme	Project name	Location/ Ward	Key Output	Performance indicators	Baseline (Current Stauts)	Planned Targets	Resource Requirement
	Establishment of an Irrigation project	County	Establishment of an Irrigation project	No of irrigation projects established		2	20,000,000
	Construction of gabions	County	Construction of gabions	No of gabions constructed		5	3,000,000

CHAPTER FOUR

IMPLEMENTATION FRAMEWORK AND RESOURCE REQUIREMENT

4.0 Introduction

This section indicates the criteria used to allocate resources per sector/sub-sector and across different departments. It also gives a description of the financial and economic environment and the trend in growth in equitable share, trends in revenue collection, estimated and actual revenue and the link between the budget and the planning process. In conclusion, the chapter highlights probable risks to be experienced during implementation, corresponding assumptions and mitigation measures.

4.1 Implementation Framework

Table 60: Stakeholders and their Role in CADP Implementation

S/No.	Sector/Institution	Role in Implementation of the ADP
1.	County Executive Committee	▪ Provide policy direction and ensuring that the necessary governance structures are in place. ▪ Monitor the process of planning, formulation, adoption and implementation of the C-ADP ▪ Manage and coordinate county functions for effective and efficient implementation of projects and programmes. ▪ Mobilise resources for the implementation of the CADP
2.	County Assembly	▪ Approval of the County Development Plan ▪ Oversight the implementation of the C-ADP ▪ Approval of budgets for the implementation of the CADP ▪ Approve the borrowing of resources by the county government to bridge the resource gap in implementation of the C-ADP
3.	County Government Departments	▪ Provide technical advice on project design, selection, budgeting, implementation and sustainability ▪ Prepare budget estimates for programmes and projects and ensure there is value for money ▪ Coordinate the implementation of planned projects within the departments ▪ Provide feedback on the implementation of projects and programmes through progress reports
	County Economic Planning Unit	▪ Coordinate preparation of the C-ADP ▪ Coordination of linkages of the C-ADP to SDGs and other national and international commitments ▪ Coordinate tracking of programmes and projects for results with the M & E framework ▪ Ensure linkage between planning, budgeting and reporting. ▪ Consolidation of progress reports on implementation of the CADP.
	Other National Government Departments and Agencies in the County	▪ Funding, implementation and advocacy ▪ Ensure prudent management of county finances and resources ▪ Human resource development. ▪ Provision of vital development statistics and information ▪ Promotion of peace and ensuring a stable macroeconomic environment
	Development Partners	▪ Provide technical, financial and human resources capacity in implementation of the programmes and projects in the ADP ▪ Financing the planned projects and programmes through loans and grants to bridge the financing gap
	Civil Society Organizations	▪ Undertake Corporate Social Responsibility (CSR) targeting some interventions as captured in the ADP ▪ Promote accountability and transparency in the implementation of the ADP

S/No.	Sector/Institution	Role in Implementation of the ADP
	Private Sector	▪ Implementation of the planned projects and programmes through provision services, goods and works. Financing of some planned activities through public private partnership initiatives

CHAPTER FIVE

MONITORING,EVALUATION AND REPORTING

5.1 Introduction

This chapter highlights the Monitoring and Evaluation framework and institutional arrangement, as outlined in the County Integrated Monitoring and Evaluation System (CIMES), that will track and report on CADP implementation progress. It describes county monitoring and evaluation structure, data collection analysis, reporting and information sharing.

5.2 Data Collection, Analysis And Reporting Mechanism

The CADP 2025/26 facilitates the implementation of the CIDP and other national and international commitments within a financial year. The monitoring and evaluation of CADP is guided by the County Integrated Monitoring and Evaluation System (CIMES). To Ensure that the implementation of CADP remains as planned, tracking of project and programmes execution progress is necessary.

Monitoring and evaluation of the CADP will entails collection and analysis of requisite data which will be in quantitative and qualitative form. Quantitative data collection methods will involve field observation visits, stakeholder meetings and interviews with key persons, while qualitative data collection methods will include surveys, questionnaires, departmental reports and various publications from different organizations. Data collected will be subjected to preliminary analysis which includes data disaggregation and cleaning.

Progress reports provide information that serves a variety of needs and users at different levels implementation of the CADP. At an operational sectoral level, the M & e reports will be relied on to improve the programme and project execution in order to develop effective and efficient management practices. Further, these monitoring and evaluation reports helps at enhancing the transparency and accountability of county government operations. The Annual M&E progress reports also contribute to the national M&E report

5.3 Institutional Framework

The County Monitoring and Evaluation Unit is domiciled in the department of Finance, Economic Planning and ICT. Monitoring and review processes will be done at both the operational and the strategic levels. At the strategic level, the monitoring process will be in line with monitoring support towards the strategic objectives of the plan. On the other hand, the operational monitoring will focus on monitoring progress towards the strategic priorities for respective sectors. Strategic monitoring will be done on a quarterly and annual basis. The County will come up with a monitoring and evaluation policy that will guide in putting in place all the necessary structures to facilitate effective monitoring and evaluation processes at all levels.

The county will continue to build and strengthen the County Integrated Monitoring and Evaluation System (CIMES) to track and evaluate development projects and initiatives. The CIMES outlines the tasks required for effective monitoring and evaluation, as well as the roles and responsibilities of all involved parties. The CIMES covers data collection, indicator formulation, research and analysis, documentation and dissemination, project monitoring and evaluation, capacity building, and policy coordination.

5.4 Dissemination And Feedback Mechanism

For accountability purposes, the County Government will disseminate information on development programmes and projects on both equitable share and other allocated resources. Citizens will be given an opportunity to participate along the various stages of M&E activities. It is envisaged that the M&E process will be guided by the principles of systematic inquiry, integrity and honesty, ensuring accurate, timely and reliable reporting of findings.

This plan will be presented to the citizens and other stakeholders through County Website, public dialogue forums and/or digital platforms. Progress will also be relayed and discussed in the mainstream media including Newspapers, Radio and T.V stations. Further, the state of the county address by the Governor in the period will give feedback to the citizens and stakeholders. It is also necessary to note that quarterly, annual and end of plan period reports shall be prepared and disseminated to the public and stakeholders.

ANNEX 2: Public Participation Report

The County Government of Nyeri initiated a comprehensive public participation process in the development of the County Annual Development Plan FY 2025/2026. This initiative underscores the county government's commitment to open governance underpinning the principles of accountability, inclusivity and transparency. The process was focused on collecting input, suggestions, and insights from stakeholders, the residents of Nyeri County and other interested parties to ensure that the fiscal planning and budgetary allocations reflect the community's needs and priorities.

Statement on the Procedure for Public Participation

In line with this, the county scheduled physical public forums in all sub counties and on X-space. These forums represented a critical opportunity for stakeholders, including local residents, business owners, civil society organizations, and other interested parties, to contribute to the shaping of the county's fiscal policies and budgetary priorities for the upcoming years. In collecting the opinions, the county government emphasized that all proposals and submissions must be aligned to the County Integrated Development Plan (CIDP), in an effort to ensure that the budgeting process is strategically aligned with the county's long-term development goals. The forums were overseen by multi-departmental committees comprising of County Executive Committee Members, Chief Officers, Administrators and Officers from various departments. Participants were also encouraged to make their submissions in writing directly to the County Treasury. With regard to this, the county provided contact information to facilitate this process, ensuring that all community members have the opportunity to participate and contribute to the fiscal planning process.

Statement on Feedback and Utilization of Views

This report aims to document the public participation process, capturing the range of inputs received, from the community. The report also serves as a feedback tool for the public providing them with a means to verify that their opinions were captured and information on how they informed decision making.

To this end, all proposals were collated, as received from the various stakeholders. The report will serve as a vital tool for the County Government of Nyeri in making informed decisions that reflect the collective aspirations and needs of its residents, thereby fostering sustainable development and enhancing the quality of life within the county.
