Tourism & Hospitality Investment Opportunities in Nyeri

Story by Governor's Press Unit | Compiled by Joseph Wambugu

Nyeri County boasts significant advantages as an investment destination, particularly in sectors such as agriculture and ICT, that continue to draw both local and global interest.

The hospitality sector is also thriving around the County. Positioned between Mount Kenya and the Aberdare ranges, Nyeri offers breathtaking natural scenery and unique landmarks in a brand

of tourism known as Highland Tourism. This prime location makes the county a top destination for tourism, which in turn fuels growth in the hospitality industry. Notable investments include FK Resort and Spa, Outspan Hotel, TreeTops Hotel, Mount Kenya Safari Club, Chaka Ranch; home to one of Kenya's largest amusement parks. There is a growing interest in agro-tourism and cultural tourism, that respectively leverage on the

thriving agricultural sector and rich cultural heritage. Tourism and hospitality in Nyeri County represent an underexploited yet high-potential growth sector with both domestic and international significance. Leveraging its strategic location at the base of Mount Kenya and the Aberdare Ranges, the county offers unmatched natural beauty, diverse ecosystems, cultural immersion experiences, and colo-

nial-era heritage sites. This makes it one of Kenya's most naturally endowed counties for eco-tourism, adventure travel, and cultural excursions as aptly demonstrated during the annual Nyeri Tourism & Cultural Festival. The Government of Nyeri under the stewardship of H.E. Dr. Mutahi Kahiga, EGH has remained committed towards achieving the goal of a wealthy county with happy, healthy, and secure people.

"My Government is committed to providing all the necessary support and incentives to facilitate investment in all sectors of the economy in Nyeri County. I assure you of a healthy investment policy and an investor-friendly and favourable business environment. We endeavour to partner with stakeholders in mutually beneficial arrangements that will bring sustainable development to Nyeri County and to extend this engagement through collaborations and engagement as we position Nyeri County as the target for profitable, sustainable and secure investment," assured the Governor.

The outgoing CECM for Tourism, Cooperatives, Culture & Tourism Diana Kendi added, "as a County Government, we are committed to promoting a competitive and investor-friendly business climate. Our strategy is anchored in a clear vision for growth through public-private partnerships, encouraging both domestic and foreign investments. .

+254 721019019 | www.nyeri.go.ke

We aim to increase the volume, diversity, and impact of these investments by fostering a conducive environment

This includes implementing robust legal and regulatory frameworks, developing strategic marketing plans, and positioning Nyeri as a preferred investment destination with high ease-of-doing-business rankings.”

Investment opportunities exist across a broad spectrum of sub-sectors which include:

-Conferences & MICE Tourism

The increased need for Meetings, Incentives, Conferences, and Exhibitions (MICE) provides an ideal opportunity to develop the Nyeri County Conference Centre. This facility, perfectly located in Nyeri Town, would have huge halls, breakout rooms, livestreaming equipment, business lounges, and on-site lodging. The center will boost business travel, increase hotel occupancy, and position Nyeri as a regional hub for professional events.

-Eco-Lodges, Cottages & Homestays

In regions like as Chinga Dam, Gakawa, and Kieni East, there are several prospects for greenfield construction of eco-lodges, off-grid cottages, and woodland retreats, in keeping with Nyeri's positioning as an ecotourism destination. At the same time, brownfield initiatives, such as converting colonial-era buildings into boutique hotels, may provide genuine historical experiences. Furthermore, local homestays in Tetu, Othaya, and Mukurwe-ini may be improved and promoted for agro-tourism, cultural interaction, and rural retreats.

- Adventure & water-based tourism

Nyeri's landscape is an ideal setting for amusement parks, nature paths, and leisure gardens. Investor prospects include water parks and mountaineering. Tetu, Mweiga, Ihururu, and Gakawa are prime examples of target regions with abundant land and excellent natural endowments. The Ndomboche Waterfalls and Chinga Dam have been

highlighted as key destinations for nature-based tourism and adventure sports. Sport boating, Kayaking, rock climbing, hiking paths, camping places, and floating restaurants are all potential investment opportunities. Wellness retreats are particularly popular and well-suited to Nyeri's tranquil environs.

-Conservation & Wildlife tourism

Nyeri's closeness to Aberdare and Mount Kenya National Parks provides opportunities for wildlife corridor conservation and community-managed conservancies. Investors are welcome to participate in sustainable fencing, camera trap installations, and the

construction of hides and ranger stations. These activities not only promote biodiversity conservation but also improve safari experiences.

-Agro-Tourism

Nyeri's recognized coffee 'heritage' creates strong potential for agro-tourism investment. Establishing boutique coffee shops, farm-based cafés, and specialty coffee experiences offers visitors immersive farm-to-cup journeys while boosting rural incomes. These will extensively support small-holder farmers, and meet growing demand for authentic coffee experiences. Investors can benefit from rising agrotourism trends while strengthening local value chains .

-Cultural & Heritage centres
Nyeri's strong Kikuyu customs, oral storytelling, food, and music all provide chances for immersive cultural tourism. Investment opportunities include creating leisure facilities with indigenous food courts, model homesteads, outdoor amphitheaters for traditional dances, and community galleries. These facilities are intended to organize cultural festivals, culinary exhibits, and community-based tourist activities that preserve history while providing economic benefits.

-Curio shops & Artisan markets

Investors may set up modular curio stores in popular tourist destinations such as

Zaina Falls, the Baden Powell Gravesite, and Mount Kenya National Park, which are already integrated with mobile payment systems. These stores will encourage local workmanship and give craftsmen access to worldwide markets through a "Made in Nyeri" brand designation. This chance will be elevated even further by adding value through design mentorship and branding help.

-Urban Lifestyle & Entertainment Infrastructure

Nyeri's burgeoning youth population and middle class seem to seek more modern urban experiences. Mall complexes, multiplex cinemas, family entertainment centers, and chain restaurants are in high demand in metropolitan areas like Nyeri Town, Karatina, and Othaya. These developments will mix retail, recreational, and hospitality services, resulting in increased domestic tourism and nightlife.

-Botanical Gardens & Eco-education

The proposed Nyeri Botanical Garden will be a flagship for biodiversity education & sustainable tourism. The garden, which will feature indigenous flora, medicinal herbs, and educational walks, will also include guided tours, greenhouse exhibitions, and a dedicated research center. This facility will aim to attract environmental tourists and academic institutions.

2025 Central Kenya ASK National Show

Story - Joseph Wambugu
Photo - Kennedy Karanja

The agriculture and rural development sector in Nyeri County is a key driver of the economy, not only locally but also across the region, comprising agricultural production, water, forestry, trade, cooperatives, environment, and forestry. It is for this reason that the administration of H.E Governor Mwalimu Mutahi Kahiga continues to prioritize investments in this sector. On this note, the Governor graced the Central Kenya National Show, which was held at Kabiru-ini grounds, Nyeri County.

The theme for this year's ASK's show was 'Promoting Climate-Smart Agriculture and Trade Initiatives for Sustainable Economic Growth'.

institutions, sectors of agriculture, livestock, fisheries, trade, manufacturing, NGOs, CBOs, youth enterprises, and women-based groups, among others met

inhabited by healthy, secure, and empowered citizens, all united in the pursuit of shared prosperity. We are actualizing this through strategic actions in-

utilizing available resources;

- Conserving and sustainably managing our environment and natural resources;
- Developing and promoting climate-resilient technologies;
- Supporting sustainable income-generating initiatives;
- Leveraging innovation and ICT for agricultural transformation.

These pillars continue to lay a strong foundation for effective service delivery and inclusive economic growth that will benefit generations to come. Governor Kahiga's administration continues to invest across all sectors while strengthening partnerships with stakeholders throughout the agricultural value chain farmers, processors, traders, and exporters alike. Together, we champion climate-smart practices that increase productivity while reducing environmental impacts. The event is also critical in the dissemination of infor-

mation of new trends, innovations and technologies in agriculture. The Governor also commended the organizers for their unwavering dedication in delivering such an outstanding event. He further urged all participants to take full advantage of the opportunities presented —whether by learning about innovative farming practices, exploring new markets, or forging strategic partnerships that will advance the growth of our agricultural community. Nyeri County was awarded as the best County Stand. It also scooped Position One as the best display and services in the Health sector and the pharmaceuticals stand. Nyeri County's stand also took Position Two as the stand that best interprets the current show theme Government stand and also awarded the third best Government Social functions stand.

The show offered a platform where exhibitors, inclusive of financial institutions, institutions of higher learning, health and hospitality

to engage in the learning and sharing process. The vision of the County Government of Nyeri is to build a prosperous County

cluding:

- Enhancing agricultural production and productivity;
- Mobilizing and efficiently

MoU For ECDE Digital Learning

Story - Imelda Kinogu
Photo - Kennedy Karanja

Change is our constant companion, and when we embrace it, we nurture growth and open doors to new possibilities in learning.

In this spirit, Nyeri Governor Dr. Mwalimu Mutahi Kahiga, EGH, joined by the Deputy Governor of Nyeri County, H.E. David Kinani-ri, the CECM for Education & Devolution, Margaret Macharia, and the Acting County Secretary and County Attorney, Kimani Rucuiya, hosted representatives from EIDU in his office for an MoU agreement. The team, led by Hannah Maina (Government Relations Specialist) and Olivia Ogembo (Regional Manager), visited for the signing of an MoU between the County Government of Nyeri and EIDU. The partnership will provide a digital learn-

ing platform, devices, and related support tools to enhance early childhood education. Once implemented, the program will:

- Improve ECDE learning through innovative, technology-driven solutions.

- Train ECDE teachers to effectively use digital tools in delivering lessons.
- Build the capacity of officers to supervise and support the program.
- Provide dashboards for monitoring and evaluation by the Department and

- Government officials.
- Enable teachers to easily create lesson plans and schemes of work.
- Strengthen education management systems.
- Generate regular reports to guide program improvement.

Currently, the program has been rolled out in 32 counties, supporting about 650,000 ECDE learners across the republic. These encouraging results highlight its great potential for success in Nyeri.

As the County Government, through the Department of Education, we are fully committed to supporting this program. A child's brain development begins at an early stage, and with technology shaping the future, it is vital that our learners acquire digital skills from the foundation level.

The integration of a digital learning system that aligns with the Competency-Based Curriculum (CBC) is, therefore, the right path forward. We look forward to a successful and well-supported rollout in Nyeri County.

KISIP 2's team Routine Site Inspection at Mweiga, Chorong'i and Ruring'u

Story & Photo - Priscilla Muthoni

True governance lies in translating policy into progress and vision into visible change.

It is through such deliberate actions that development is brought closer to the people, turning commitments into tangible improvements in everyday life.

Guided by this principle, the County Coordinator of the Second Kenya Informal Settlement Improvement Program (KISIP 2), Beatrice Koech led a routine site inspection at Mweiga settlement in Mweiga Ward, Kieni West Sub-County, Chorong'i and Kiamwathi settlement in Ruring'u Ward, Nyeri Central Sub-County.

The visit involved collaboration between the National Project Coordinating Team (NCPT), County Project Coordinating Team (CPCT), and key stake-

holders, including the Consultant Gath Consulting Engineers & Losai Management Ltd and the Contractor High Point & Pinnie Agency Limited.

The joint inspection sought to evaluate the progress of infrastructure upgrading works, with a focus on roads, drainage systems, and related social amenities within the settlements.

Particular emphasis was placed on assessing the extent to which project development objectives are being achieved, monitoring physical and financial progress, and ensuring compliance with the Environmental and Social Management Framework (ESMF) as well as other implementation safeguards. During the site visits, the

teams collected first-hand data and observations to inform the preparation of comprehensive Monitoring and Evaluation (M&E) reports in line with Section 6.3.3 of the Project Operations Manual (POM). The collaborative approach provided an opportunity to address emerging challenges, review timelines, and strengthen coordination

mechanisms between the NPCT, CPCT, consultants, and contractors to ensure the smooth delivery of project outputs.

The County Government of Nyeri, under the leadership of H.E Dr. Mwalimu Mutahi Kahiga reaffirms its dedication to good governance, transparency, and the delivery of sustainable development.

Muthoni Kirima terminus will change Nyeri town for the better

Opinion piece by Beatrice Koech, Director of Physical Planning Nyeri County

150 kilometres north of Nairobi, serves as the administrative head-quarters of Nyeri County. Historically, the town emerged during the colonial era as a British administrative post, post, gradually expanding to accommodate settlers, missionaries, and traders. Its evolution into a regional hub has been shaped by both historical functions and the surrounding natural systems.

Nyeri's CBD has developed within a constrained geographical setting, heavily influenced by the Chania and Muringato rivers, which traverse the town in an east-west orientation. These river systems have dictated the alignment of the road network, resulting in a predominantly linear structure with limited room for lateral expansion.

Key east-west corridors namely Kenyatta Road, Gakere Road and Kimathi Way form the spine of intra-CBD movement. The western boundary is defined by Stanley Mathenge Road which connects to the Nyeri-Kamakwa Road, while the eastern edge is framed by Temple Road, extending toward Addis Ababa Road and Michezo/Hospital Road.

This configuration has led to a compact and congested urban core, with limited capacity to absorb increasing vehicular and pedestrian traffic. The natural barriers, coupled with historical land use patterns, have restricted spatial flexibility, reinforcing the need for strategic decongestion interventions. These may include decentralisation of key services, development of satellite nodes and reconfiguration of transport infrastructure to enhance mobility and reduce pressure on the CBD. Under the stewardship of the Governor, Dr Mutahi Kahiga, Nyeri County took a major step towards solving its congestion problem by constructing Field Marshal Muthoni Kiri-ma Terminus, a new transport hub

designed to ease pressure on the busy town centre. With the town sitting along major service roads and serving as the county's headquarters, traffic has steadily grown, making its CBD overcrowded and difficult to navigate. This new terminus will spread out movement and create space for better planning. This approach follows global and local goals to make towns more organised, walkable and easier to live and work in. By focusing on transport logistics as a tool to guide growth, Nyeri will become cleaner and more balanced in future.

Rationale for expansion of Nyeri town CBD: The CBD's overextended functions, expanding administrative, commercial and public service demands have resulted in pronounced congestion within public spaces, with indiscriminate parking and limited pedestrian infrastructure. This situation has now reinforced the perception of Nyeri, both locally and countrywide, as a transit terminus rather than a structured urban node. These circumstances, as they currently stand, have continued to undermine the quality of urban life and strained the town's capacity to deliver efficient services. Geometric expansion towards the available eastern areas of the town remains constrained. Institutional grounds and underutilised parcels such as the former Asian Quarters, still present significant spatial voids

and limited organic expansion. The lack of mixed-use development and integrated plan-rated planning in these areas continue to further stifle connectivity and economic vibrancy.

In order to strategically address these challenges, the following was proposed: reconfiguring land use to promote mixed-use development and optimise underutilised public spaces, enhancing mobility and access through structured parking, pedestrianisation and multimodal transport integration, and decentralising core functions to emerging nodes, thereby relieving pressure on the CBD and fostering balanced urban growth.

Such interventions do not only decongest the town centre, they also align Nyeri County's spatial development with broader planning frameworks including the ISUDP, CIDP and Vision 2030.

Key targets under SDG 11 that are relevant to Nyeri town include target 11.2 (Providing access to safe, affordable, accessible and sustainable transport systems for all), Target 11.3 (Enhancing inclusive and sustainable urbanisation through participatory planning and integrated development) and Target 11.6 (Reducing the adverse environmental impact of cities, including congestion and pollution).

The Nyeri Integrated Urban Development Plan 2014-2034 operationalises these global aspirations

by proposing targeted interventions to restructure and revitalise the town's urban form. Among its key proposals is the adoption of Transit-Oriented Development (TOD) principles, which aim to concentrate mixed-use development around high-capacity transport nodes to reduce reliance on private vehicles and enhance walkability.

One notable TOD intervention is the Field Marshal Muthoni Kirima Transport Terminus, envisioned as a strategic mobility hub that can absorb overflow from the congested CBD facilitate modal shifts and catalyse economic activity in adjacent zones. This aligns with the broader ISUDP goals of decentralising urban functions to reduce pressure on the CBD, promoting compact, connected growth through integrated land use and transport planning and enhancing public space utilisation and environmental stewardship. By leveraging SDG 11 and the ISUDP.

Nyeri town is pursuing a structured decongestion strategy that is both locally responsive and globally aligned.

Nyeri town occupies a strategic position, along key transit corridors, notably the A2 and B4, which are complemented by a dense local road network radiating from the town centre, which is the administrative and economic nucleus of Nyeri County, and the principal urban node in Central Kenya. Given this location-

al advantage, transport infrastructure plays a pivotal role in facilitating access to economic, educational and social opportunities. To harness this potential sustainably, future spatial frameworks must adopt a mutually beneficial approach where urban growth is symbiotically nourished by mobility systems and vice versa. This concept envisions transport not merely as a conduit, but as a catalytic nutrient stream that sustains and shapes urban form, land use and socio-economic vitality.

In alignment with TOD principles, Nyeri's future urban morphology prioritises compact, mixed-use development around intermodal transport hubs and walkable and connected neighbourhoods that reduce car dependency and enhance public space utilisation.

Integrated land use and mobility planning to curb suburban sprawl and mitigate traffic congestion. This reciprocal model reinforces the idea that well-structured transport systems can actively feed urban growth stimulating densification, economic clustering and inclusive access. By embedding TOD strategies within this mutual-benefit framework, Nyeri can evolve into a resilient, efficient and people-centered urban system that aligns with both local aspirations and global sustainability goals.

Decongesting Nyeri town is more than a physical intervention. It is a strategic reimagining of how this town functions, grows and connects. The new terminus signals a bold shift toward integrated urban planning, where transport infrastructure becomes the backbone of spatial transformation. Nyeri County wants to lay a strong foundation for a more balanced, accessible, and future-ready urban system. This is not just about easing traffic, it's about creating a town that works better for its people, its economy and its legacy.

International Youth Fellowship (IYF) Weekend Academy Graduation

Story - Rozina Nderi
Photo- Jim Stephen

The International Youth Fellowship (IYF) hosted its graduation ceremony for its 5th cohort of free Weekend Academy, celebrating young people who have completed their journey of personal and professional development.

The ceremony took place at IYF centre, Nyeri town where over 100 graduated with courses in hospitality, cosmetology, hair dressing, fashion & design, languages, carpentry, music, mechanic, AI, digital marketing, Mindset Education among other technical areas of specialization.

The highlight of the event was a keynote address delivered by Chief Guest, CHRP Bridget Martha MBA, BBA (Fin), CWC, CHRA, a respected voice as a Human Capital Development Advocate.

Speaking on the theme “Using Acquired Skills to Create Income and Opportunities, the CHRP Bridget, acknowledged that; “The real turning point is not in how many

certificates you hold, but in how deeply you understand your capacity. Skills are powerful, but when applied purposefully, they become transformative”. Her message resonated strongly with the graduates, encouraging them to look beyond credentials and focus on how they can apply their unique strengths, experiences, and training to create sustainable livelihoods and positive change,

especially given the alarming shortage of employment opportunities and above all putting God first. She challenged graduates to shift their mindset from qualification to active contribution to the labour market for economic growth and development. Additionally, she underscored the importance of embracing digital technologies—not only to stay current but also as tools for

earning income and building sustainable careers in the modern digital economy. The ceremony marked not just an academic milestone, but a Launchpad for action. With strong foundations laid, the graduates now step forward not just as job seekers, but as solution builders. Quoting Deuteronomy 28:12 “The Lord will bless the work of your hands” she remarked and wished the graduates success in their

endeavours.

The County Director Youth - Monica Thumbi in the Department of Gender, Youth, Sports and Social Services sensitized the graduates on the various opportunities available for youth in the County Government of Nyeri Which includes: Wezesha Empowerment Programs, AGPO training, Capacity Building on various Skills, talent & Sports development, youth mentorship and Coaching on Lifeskills, the implementation of the Nyeri Youth and Development Policy, Collaborations & Partnerships with various stakeholders among other initiatives.

She applauded the great efforts by IYF led by Director Wycliffe Wundanyi for the benefit of the youth which is transformative and that has impacted positively through their economic and improved livelihood.

Acknowledging the hard work, resilience and commitment, Thumbi congratulated the graduates," your journey is just beginning, and the future is yours to shape"! She concluded.

Kagere FC Meets Deputy Governor

Story - Priscilla Muthoni
Photo- Peter Wangari

For many youths in the village, local football teams are more than just a pastime; they are a lifeline of hope, a stage where raw talent meets big dreams.

Joining such a team is often the first step toward chasing a dream as big as becoming the next Victor Wanyama, Michael Olunga, or even Africa's greats like Didier Drogba and Sadio Mané.

These stars once played barefoot on dusty pitches, and their journeys inspire the belief that even from the humblest beginnings, greatness is possible.

But the reality is harsh. Without resources, those dreams often fade. Many grassroots teams lack prop-

er balls, kits, boots, or even a reliable means of transport to matches. Players sometimes walk long distances just to honor a fixture, ar-

riving exhausted before the game even begins. Others miss out on life-changing opportunities to be scouted simply be-

cause they cannot travel to tournaments where talent is discovered. Countless gifted footballers remain unseen, not because they lack

skill, but because they lack support.

It is against this backdrop that Kagere FC, accompanied by the area Mahiga MCA who is also the Nyeri Majority Leader Hon. James Kanyugo, paid a courtesy call to the office of Nyeri Deputy Governor H.E David Kinaniri.

Their agenda was to extend an invitation to a planned fund drive aimed at purchasing a team bus, a vital step toward easing transport challenges and keeping alive the dreams of young footballers who refuse to give up on their journey from village pitches to the global stage.

Wishing the team, the best of luck as they plan for their future.

Four Deaf Athletes Selected For Team Kenya at the Deaflympics

Story - Rozina Nderi / Photo - Jim Stephen

Nyeri County is proud to announce that four deaf athletes have been selected to represent Kenya at the upcoming Deaflympics in Japan. The athletes are: George Waweru, Ian Kahinga, Martin Gachie, Sharon Jeptarus. The selection followed trials held at Ulinzi Sports Complex. This milestone was achieved through close collaboration between the County Government of Nyeri and the Nyeri Deaf Association, which continues to play a key role in nurturing and supporting talent within the deaf community. The County Government of Nyeri wishes to extend our heartfelt congratulations to all athletes who took part in the trials. Each of them displayed remarkable courage, talent, and determination, proving that Nyeri is home to outstanding sporting potential. We proudly celebrate the success of those selected as they prepare to raise both the Kenyan and Nyeri flags on the global stage.

CGN responds to families affected by fire

The County Government of Nyeri, under the leadership of H.E. Dr. Mwalimu Muthahi Kahiga, EGH, PhD, responded swiftly to support the affected families after fire incident at Karia Village in Ruring'u Ward recently. Guided by the CECM Gender, Youth, Sports and Social Services, Esther Ndung'u, the department dispatched a team led by the Director for Disaster Risk Management, Col. (Rtd) Lucas Teimuge, MBS, ndc, psc (K) and Social Welfare officers to assess the situation and provide immediate assistance. The fire destroyed 12 rental units, displacing 20 families. Fortunately, there were no injuries or fatalities reported, though the families experienced significant loss of property and shelter. Relief support including food-stuffs, blankets, and other essential items was distributed to the affected families to help ease their burden during this difficult time. Residents are strongly encouraged to observe fire safety measures such as switching off cooking appliances when unattended to prevent future tragedies.

COUNTY GOVERNMENT OF NYERI NYERI COUNTY ENTERPRISE DEVELOPMENT FUND BOARD

CALL FOR LOAN APPLICATIONS

The Nyeri County Enterprise Development Fund Board (EDF Board) invites for loan applications from eligible applicants

ASSET FINANCE

Eligibility Criteria

1. Complete the loan application form.
2. Attach the following required documentation:
 - Copy of National ID/Passport (for individuals).
 - Copy of Business Registration Certificate / Single Business Permit.
 - KRA PIN Certificate.
 - Bank statements (last 6 months/MPESA Statements).
 - Business records (sales, invoices, or books of accounts).
 - Passport-sized photographs (applicant/guarantors where applicable).
 - Proof of operating the business for more than one year (licenses, permits, or records).

**Interest rate
5%
P.A**

To apply download the application form from nyeri county Government website: nyeri.go.ke

For any inquiries or clarifications;

Reach us on Tel: 0711269464 or enterprisedevfund@gmail.com or visit our office at Co-operative Building Opposite Nyeri Golf Club

Application is open all year

COUNTY GOVERNMENT OF NYERI
NYERI COUNTY ENTERPRISE DEVELOPMENT
FUND BOARD

CALL FOR LOAN APPLICATIONS

*The Nyeri County Enterprise Development Fund Board (EDF Board)
invites for loan applications
from eligible applicants*

Eligibility:

1. A resident of Nyeri County
2. The Enterprises should be operating in Nyeri County
3. Must be a registered enterprise, group, or cooperative society
4. The enterprise should have a Business Permit
5. Provide a Bank or Sacco statement
6. Provide books of records for the enterprise
7. Provide security for the loan: Title, Logbooks, Shares listed in NSE, Investment Insurance policies, and third-party security of any of the above assets financed by the fund.
8. Groups, companies, and cooperatives to provide minutes of resolution to borrow, their constitution or article of association.
9. Attach copies of ID, Pin Certificate, Tax Compliance, Business Permit
10. Attach Credit Reference Bureau report. Note: not clearance certificate
11. Any other supporting documents

How to apply

1. Download the application form from the Nyeri County Government website www.nyeri.go.ke.
2. Fill in the application and attach all the necessary documentation
3. Take to the area chief for stamping and signature
4. Take the form to your area Ward Administrator for stamping and signature
5. Submit the duly filled application form to Trade offices at Co-operative Building opposite Golf Club

EDF applications are open all year
